

Divodes FG

Hurtigt virkende desinfektionsmiddel som kan anvendes på overflader, der kommer i forbindelse med levnedsmidler. Fordamper hurtigt og efterlader derfor ingen rest af desinfektionsmidlet. Produktet er anvendeligt på alle overflader, som tåler alkohol. Divodes FG indeholder en blanding af alkoholer og er formuleret til optimal effektivitet over for mikroorganismer. Produktet har et bredt drabs-spektrum og er effektiv over for de fleste vegetative mikroorganismer.

Divodes FG is a fast working disinfectant spray for use in mid-shift and terminal disinfection applications.

Divodes FG is safe for use on food contact surfaces and evaporates rapidly, leaving no residue. It is suitable for the disinfection of alcohol-safe surfaces, machines and components (conveyors, fillers, bottle inspectors, water-sensitive components, etc) and articles such as chopping boards commonly found in the food and beverage industry. Is also suitable for the disinfection of food displays in supermarkets, butchers, etc.

It can also be applied during mid-shift breaks to maintain a good standard of hygiene until production is restarted again.

Divodes FG consists of a mixture of alcohols formulated for optimal biocidal effect. It has a broad spectrum of action, and is effective against most vegetative forms of micro-organisms.
